Overview
The Health and Social Care industry contributes an estimated £43bn to the UK economy alone, and supports 2.8 million jobs. With growth projected at 12%, experience of this workplace together with knowledge of business concepts will create a wealth of career opportunities. Designed to give students real-world work experience together with a working knowledge of business theory, this course is ideal for students with the ambition to manage organisations in this exciting industry.

Work Placement
You will spend four months in your second year working in full-time paid work within the sector, allowing you to take your learning into the real world.

YEAR - 1
