

## **Health Requirement Information For Yearly One Step TB test**

### **Requirement**

In order to attend your clinical placement, you must provide proof of your tuberculosis (TB) status. You are required to provide documentation of a TB test done prior to your placement start date. If you had a positive TB test in the past you are required to attach a chest x-ray report done within 1 year of program entry. You are not required to complete a TB test again.

### **Documentation**

Documentation of the test can be provided by a Physician or other Health Care Professional. If you have a positive TB result on this testing, proof of a follow-up chest x-ray must also be submitted.

### **Where can I get this done?**

This One Step TB Test can be done by your family physician, the Campus Health Centre or the Public Health Department. There may be a fee for the test.

Any questions regarding this health requirement can be directed to the Campus Health Centre at 905.721.3037

### **TO BE COMPLETED BY STUDENT**

Last Name: _____	First Name: _____
Student #: _____	Program: _____
Date of Previous Tuberculin Test: _____	Result: _____ mm
mth/day/yr
